Safety Precautions

Thank you for purchasing this product. Please read through these operating instructions so you will know how to operate your model properly. After you've finished reading the instructions, keep this manual in a safe place for future reference.

- Connect the unit only to a 12-volt power supply with negative ground.

- Do not install the unit in a location that impairs safe driving.

- Do not watch video on the front screen while driving, except for rear view video camera usage.

- Keep the unit, amplifier, and speakers away from moisture or water to prevent electric sparks or fire.

- Do not change the fuse on the power cord without professional guidance; using an improper fuse may damage the unit or cause a fire.

- Contact your nearest dealer if water or other objects enter the unit, if there is smoke, or if there is a peculiar smell.

Adjust the volume to a safe and comfortable level to ensure awareness of emergency situations while driving.

Safety Precautions

- Adjust the volume to a safe and comfortable level to ensure awareness of emergency situations while driving.
- Use a clean silicone cloth and neutral detergent to wipe off dirt. Avoid using rough cloths or non-neutral detergents like alcohol, as they may scratch or discolor the monitor.
- If the unit exhibits abnormal behavior, refer to the troubleshooting guide in the manual. If no relevant information is found, press [RES] with a ball-point pen or similar tool to reset to factory default.
- If the car has been parked in hot or cold weather for a long time, wait until the temperature inside the car normalizes before operating the unit.
- Avoid touching the screen with sharp objects to prevent damage.
- Some illustrations in the manual are for demonstration and may differ from the actual images displayed on the screen. Operate the unit according to the manual to prevent unnecessary problems.
- The warranty will not be valid if problems arise from inappropriate operation.
